

NORTHEAST  
INDIANA  
WORKS

To whom it may concern:

Northeast Indiana Works has partnered with Operation Job Ready Veterans (OJRV) in varying capacities since February of 2016. We currently have a Memorandum of Understanding with OJRV to provide services related to the federal Ticket to Work program in northeast Indiana. Prior to this arrangement, OJRV provided services to Veteran's in northeast Indiana in a specialized program.

We have seen good results from the program to serve Veterans and continue to be encouraged by the work that OJRV is leading in the area related to the Ticket to Work program. Gene has been great to partner with and has demonstrated a strong leadership presence amongst the other members of the OJRV team during our interactions. We endorse and support OJRV as a service provider and partner, and would encourage any interested entity to utilize services made available through the organization activities and interests.

Best regards,
