Operation: Job Ready Veterans

As a former Division Vice President of a Fortune 500 company, President of Therrien Industrial Consulting, Inc. for fifteen years and a volunteer for the Veterans Administration, Joliet CBOC for over six years, I have witnessed first hand many valuable presentations and programs.

The presentation of the Operation: Job Ready Veterans program has been one of the most effective and appropriate I have been fortunate enough to attend in a long time.

It is a valuable addition to our Veterans Administration, Joliet CBOC Job Club since you are able to connect with all of the veterans and prepare them for Job Interviews in one week. Something we struggle to do over a much longer time frame, since we only meet for one hour per week.

Your success record speaks for itself.

Within the last year 60% of the veterans you have escorted to hiring events have been hired with a retention rate of over 80%.

Thank you for all of your efforts on behalf of our veterans and the personal touch that makes it all work.

Please feel free to use me as a reference for your presentation of the Operation: Job Ready Veterans program.

Sincerely,

W. James Therrien
